

# DIVETANK **DIVE WORK** **TRAIL**

The Seawork **DiveTank** is kindly supplied by James Fisher with activities and demonstrations organised by the Association of Diving Contractors.

The **DiveTank** at Seawork 2019 is the perfect opportunity for DiveWork exhibitors to demonstrate their skills and products, in a live, underwater environment.

Underwater demonstrations can be seen in the **DiveTank**, located on the Quayside, throughout Seawork 2019. For a full schedule of demonstrations please see the information boards at Seawork, situated by Registration and the **DiveTank**.

All demonstrations can also be seen on the large viewing screen on the Association of Diving Contractors stand, stand number D11. For additional information, or to arrange your own demonstration, please visit ADC on stand D11.

# SEAWORK DIVE TANK PROGRAMME 2019

**Operations:** Operations: Equipment and tank provided by James Fisher Dive Tank Planning and Coordination by ADC. Supervisor and four-man commercial dive team provided by **James Fisher**. Dive Plan, Risk Assessment and Emergency plan by **James Fisher**. Continuous demonstration of dive activity planned throughout the show. Large viewing screen on ADC / Divework communal area.

**All activity and adjustment to programme subject to control by the dive team Supervisor**

**Limitations:** The published programme is subject to change during the show.

Additional demonstration requirements to be coordinated via the ADC Secretary or JF Supervisor.

Demonstrations will be limited to activity that does not compromise the water quality in the tank.

**Contact for Additional Dive Tank Activity:** Taira Caton – ADC Secretary secretary@adc-uk.info 0333 121 5474
